INTERVENTION URGED.

PROPOSED CABLE FROM HONGKONG TO PREMIER.

MUST OUST CANTON "REDS."

We have to-day received from the Hon. Mr. P. H. Holyoak, the draft of a telegram which it is proposed should be dispatched to the Prime Minister, Mr. Stanley Baldwin, from the citizens of the Colony.

This telegram will be submitted for approval to the public meeting which has been called for the Theatre Royal on Tuesday evening next. It states clearly the precarious position of Hongkong in view of the Bolshevik menace centred at Canton and calls for armed intervention to oust this subversive element.

The draft telegram is as follows:—
"This Colony is a vital part of the British Empire, having already vainly appealed through a telegram unanimously passed at a Great Mass Meeting held on July 27th and passed on by the Governor at its request, to His Majesty's Government, now appeals to His Majesty's Prime Minister to take steps to have the following provisions of the Treaty of Nanking, 1842, and Tientsin, 1858, between Great Britain and China carried out, namely:—

(1) Article II of the Treaty of Nanking which provides that British subjects, with their families and establishments, shall be allowed to reside for the purpose of carrying on their mercantile pursuits, without molestation or restraint, at Canton, Amoy, Foochow, Ningpo and Shanghai.

(2) Article IV of the Treaty of Nanking by which British Merchants are permitted, at all ports where they may reside "to carry on their mercantile transactions with whatever persons they please."

(3) Article X of the Treaty of Nanking authorising goods belonging to British Merchants to be conveyed by Chinese Merchants to any province or City in the interior of China.

(4) Article XI of the Treaty of Tientsin which "also opened Swatow and other Southern Ports for foreign trade and stated that "It is agreed that British subjects are permitted to carry on trade with whomsoever they please, and to proceed to and fro at pleasure with their vessels and merchandise."

The observance of these provisions of the Treaties is imperative for the commercial prosperity of this Colony, seeing that Canton is the principal gateway for British trade into South China.

The present Canton Authorities, who are independent of the Central Government at Peking, and have been in office for less than 3 months are directly and solely responsible for the cutting off of all steamship communication between Canton and Hongkong, both direct and via Macao, and also for the boycott in Canton and other ports in South China of British subjects, ships and goods.

They have also openly declared their intention of destroying by every means in their power, Hongkong, its trade and prosperity.

In 1924 the total shipping all classes (including Steam Launches) entered and cleared from Hongkong was 764,492 vessels, totalling 57,000,000 tons. Since 1st July this year following the Strike the average daily number of vessels entering and clearing Hongkong has been 34 vessels totalling 55,819 tons. Since 1st July the average daily number of ships (including River steamers), held up through the boycott has been 73 of which 45 are British. The recent proclamation by the Canton Authorities with regard to

coastal navigation states that vessels of any nationality, except British and Japanese, may enter and leave the Port of Canton provided they omit Hongkong, which still further destroys British shipping interests. The proclamation is an act of open hostility to Great Britain and flagrantly and deliberately violates her Treaties with China.

The effect of this action of the Canton Authorities has been to cause a complete stoppage of the export of silk from the Canton Delta through Hongkong and of the import of British goods into Canton and the interior; thereby causing disastrous losses both to British and Chinese merchants in this Colony and to the export trade of Lancashire and Yorkshire, which must result in increasing permanent unemployment in Great Britain and the closing of many of their mills.

The Canton-Hongkong problem is entirely separate and distinct from that in any other part of China owing to the fact that Canton does not recognise and is in rebellion against the Central Government at Peking and that no Conference held at Peking on tariff or extra-territoriality or any other questions can possibly assist this Colony in the remotest degree, in its present most serious and urgent need; and any delay in dealing direct with Canton on the South China situation can only result in daily losses to this Colony, of increasing and ruinous magnitude; moreover the British Government, if it delays decisive action now will most certainly have a far larger problem to face at Canton in the future than that confronting it at present.

By prompt action now, the Naval and Military Forces, in this Colony could easily place alternative and friendly Chinese Authorities in power at Canton.

There is no question whatever of making war on China but simply of ousting the present, violently anti-British Bolshevik faction which has recently succeeded in seizing the reins of power at Canton.

It may be added that such intervention will be hailed with the greatest satisfaction by the oppressed and terrorized people of Canton.

Apart from the incontestable right of British Subjects in this Colony of every race to the protection of the British Flag in defence of the provisions of the Treaties between Great Britain and China, this Colony has by its repeated considerable defence contribution, for the past 25 years acquired a right to the active support of the British Government. Such defence contributions amount altogether during that period to the sum of 49 million dollars, the 1924 contribution being the record amount of 4,1/4 million dollars, and have naturally been considered by this Colony as an insurance fund for the protection of the rights secured to British subjects by Treaties with China.

Accordingly the residents of this Colony at a great mass indignation meeting demand that the British Government take immediate and decisive action to maintain our Treaty rights and to install an alternative and friendly Chinese Government at Canton and that communications and trade between Hongkong, Canton and the interior of South China shall be restored and British Treaty Rights fully carried out by it and that the present intolerable strangulation and boycott of the business of this Colony by Canton be ended.

It is the unanimous opinion of this Meeting that the above course is the only effective method

THE LATE LIAO CHUNG-HOI.

DETAILS OF HIS ASSASSINATION.

Canton, August 21.
Liao Chung-hoi, who was Finance Commissioner and Chairman of the Labour section of the Kuomintang at Canton, was shot while alighting from a motorcar in front of the Kuomintang headquarters. He died en route to hospital. His guards fired on the assassins, one of whom was killed and two wounded. The others escaped. It is understood there had been dissensions in Chinese Labour circles, and the assassins were probably labourers. Liao Chung-hoi, whose life was unsuccessfully attempted at a recent Labour meeting, was the leader of the workers and the real power behind the present strike. He was twice Governor of Kwangtung Province, and was violently anti-foreign and anti-Christian.—*Reuter.*

MOROCCAN WAR.

SPANISH COMMANDER WOUNDED.

Madrid, August 21.
The Acting President Directory announces that Colonel Monasterio, Commander at Alhucemas, has been gravely wounded in a Riff attack on the island which opened last night and resumed this morning. The Spaniards vigorously replied. It is noteworthy that Alhucemas was reported as the spot from which the coming Spanish offensive in co-operation with the French was being launched.—*Reuter.*

THE WEATHER.

TYPHOON SOUTH OF HONGKONG.

The latest report from the Royal Observatory is as follows:—
"Pressure has decreased slightly at Shanghai, and is stationary over Central Luzon and has decreased slightly elsewhere. It is highest over South Manchuria and Central Japan. The depression in the China Sea is about 130 miles south of Hongkong, and is moving slowly westwards. The forecast for the twenty-four hours ending at noon tomorrow is: Hongkong to Gap Rock, East wind, strong, moderating, fair generally."

CORRESPONDENCE.

Why a Public Meeting?

[To the Editor, Hongkong
Telegraph.]

Sir,—I hope you will allow me, briefly to assure "Thinker" that he is not alone in his view. Attendance at two meetings this week convince me that some unnecessary "hot air and possibly tactless utterances"—which I must admit have been favourably received—have been released, likely, I am fully convinced, to do more harm than good.

The need at the moment is not merely to keep our powder dry, but our temper under control.—Yours, etc.,

IMPERIALIST.

Hongkong, August 21, 1925.
[We have received a letter on the above subject from "Indignant" who disagrees with the view of "Thinker" but as the letter is couched in extravagant and somewhat abusive language we refrain from publishing.—Ed. H.K.T.]

of restoring communications and trade between Hongkong, Canton and South China and of preventing the economic destruction of Hongkong and of British interests in the Treaty Ports of South China."

"RED" CONVICTED.

NOMINAL FINE ON PASSPORT CHARGE.

TO BE EXPELLED.

Joseph L. Tiplitch, a Ukrainian, appeared on remand before Mr. S. B. B. McElderry, at the Central Magistracy this morning, on a charge of not having a proper passport. He was convicted on a technical point, and was fined \$1, or one day's imprisonment by the Magistrate, who took into consideration the fact that the defendant had been already detained for three days.

At the previous hearing certain statements were made by the Captain Superintendent of Police as to the defendant's connection with "Red" activities in Canton, in consequence of which the defendant was permitted to find and bring into Court friends who would be willing to speak as to his good character. Defendant produced a number of his Russian friends, who are employed in the Hongkong Hotel, in Court this morning.

The Magistrate said, however, that what he was called upon to consider was the charge of not having a passport and he found that only a technical offence had been committed. His Worship did not feel inclined to take into consideration all sorts of other things which were mentioned by the prosecution but which had no connection with the charge itself.

As the defendant had been in custody for three days already, a fine of \$1 only would be imposed, and his Worship asked the Captain Superintendent of Police how he proposed to proceed further in the matter.

Mr. Wodehouse, I understand he has one or two Russian friends who are prepared to say that he is what is called a "White" Russian. I don't want to be hard on the man. Of course when it comes to a question telling the colour of people's hearts and not that of their skins it makes it rather difficult. Personally I have just as much faith in my side of the case as he has in his, but in any case it is not desirable that he be allowed to remain in the Colony.

The question was raised as to the form under which the order of expulsion should take. The Magistrate asked the C.S.P. if it was sought to deport the man under the emergency powers delegated to the police authorities or under the powers which the Bench possessed in dealing with an offence under the passport regulations.

Mr. Wodehouse replied that perhaps the simplest form would be to make the order under the passport law.

The Magistrate: If you are satisfied that it is desirable that he should not remain in the Colony, I am prepared to make the order.

The C.S.P.: Yes, I am satisfied, your Worship.

His Worship made the order of expulsion as applied for.

STINNES PAPER SOLD.

POLICY TO BE UNCHANGED.

Berlin, Aug. 21.
Well-informed circles state that the Stinnes concern has sold the Deutsche Allgemeine Zeitung to a consortium headed by the paper manufacturer Salinger and the Berlin publisher Weber, for three million marks, which has been paid in cash. The policy of the paper will not be changed.—*Reuter.*

DAVIS CUP.

AUSTRALIA BEATS JAPAN.

Brooklines, Aug. 21.
By winning the first three matches, Australia has eliminated Japan from the Davis Cup. Patterson and Hawkes beat Shimidzu and Harada, 6-1, 6-2, 9-7.—*Reuter's American Service.*

SHIPPING STRIKE THREAT.

STRONG ACTION IN AUSTRALIA.

Sydney, Aug. 21.
A mass meeting of 1,500 overseas seamen have unanimously resolved that there be no resumption of work until the acceptance of the demand for the payment of July rates of pay to all British seamen in all waters; and repudiating any agreement in Britain by Mr. Havelock Wilson and the British Union. The meeting was adjourned until Monday, pending the calling of seamen's meetings in all the states. The strike threat affects over 50 ships at present in Australian waters and many more en route to Australia.—*Reuter.*

COTTON SPINNERS.

NO ORGANISED SHORT TIME.

London, Aug. 21.
A meeting of the Bolton Master Cottonspinners held at Manchester decided that there will be no organised short time working in the fine cottonspinning industry. Though trade is not profitable there are no big stocks on hand and the industry is declared healthy.—*Reuter.*

ANOTHER HONOUR.

"LITTLE HSU" AT METZ.

Paris, Aug. 21.
A Metz message says the General commanding at Metz has paraded his troops in garrison before General Hsu Chou-tcheng, to whom he delivered the insignia of a Grand Officer of the Legion of Honour. He also conferred the Cross of an Officer of the Legion of Honour on Colonel Sung. Afterwards the troops filed off.—*Havas.*

HOME CRICKET.

MATCHES ABANDONED OWING TO RAIN.

London, August 21.
The match at Southampton between Hampshire and Yorkshire was not concluded owing to adverse weather conditions. The scoring was as follows:—
Yorkshire, 264.
Hampshire, 114 for four wickets.
In Yorkshire's innings, Holmes compiled 150. Rain fell when Hants went in, and the match had to be abandoned.

Gloucester Beats Lancs.
At Manchester, Gloucester beat Lancashire on the first innings of a match which was spoiled by wet weather. Scores:—
Gloucester, 456 and 63 for one wicket down.
Lancashire, 323.

In Gloucester's first innings, Hammond scored the magnificent total of 250, and was undefeated. The close. Dipper contributed a fine 144. Macdonald captured five wickets at a cost of 123 runs. For Lancs, Watson knocked off 93 and Sharp 75, Parker taking five wickets for 120 runs. Rain fell in Gloucester's second innings, and play had to be abandoned.

Somerset Start Well.

Rain also spoiled the match at Taunton between Somerset and Kent, stumps having to be drawn soon after Kent had gone in to bat. The scores were:—
Somerset, 349 for six wickets (declared).
Kent, 6 runs for no wickets.
For Somerset, MacBryan hit up 92, Johnson 117, and Longrigg 90, not out.—*Reuter.*

Bulls and Inners

□ □ From the Office Butts. □ □

A book entitled "From President to Prison" is now on sale in Hongkong. It might cause somebody at Canton furiously to think.

The Rosta (Soviet) news agency reports that several cargoes of sunflower seeds have been shipped from Russian ports. This should keep the Chinese song-birds well supplied.

It's an ill-wind, etc. One result of the local strike trouble has been the death of the cross-word craze.

It is perhaps merely a coincidence that the shortage of live-stock corresponds with an increase in the local lost-dog advertisements.

In spite of all the police raids while the man who invented cold hash doesn't pay very well.

MacWhirter says that these border affairs somehow remind him of the history of the Lowlands.

It is rumoured that a sudden exodus from one of the ferry smoke-rooms was caused this week when a man set a light to something he had stuck in his mouth.

The Soviet has received a letter from a foreign Labour delegation in admiration of "the careful and loving manner in which the Russian workers managed to save objects of art and those valuable historically and preserve them for the working class." Which is a very artistic way of describing it.

The only difference between a hat and a creation is the price.

This week's recipe: Souffle de la Chinoise: A pound of rumour, four ounces of hearsay evidence, an ounce of gossip. To be well mixed in about half a pint of cocktail judgment. Keep team is bound to win.

The Soviet reports that it has formed an Association for the Exchange of Cultural Ties with other countries. This at last explains some of the neckwear atrocities.

The real difficulty about these inter-Ally debts seems to be the question of payment.

A Briton who week-ended at Repulse Bay left a box of matches and a newspaper on one of the rock ledges. The evidence seems to point to his being an Englishman.

It is not true that on account of the popularity of paper serviettes, a local hotel intends introducing paper bed linen.

The Daily Press believes that this week was the first time that three three-funnelled ships were seen in Hongkong at the same time. The occasion on which three Express boats were here must have been merely a funnel little coincidence.

Some of these new hotel boys are so honest, they won't touch a pair of shoes—not even if they are left outside the bedroom door!

Maybe Sir Edward Stubbs has been appointed Governor of Jamaica in recognition of the tribute which he paid to the banana industry of that Colony on the occasion of a Burns' dinner.

What about giving our intimidators "three of bamboos"—well laid on?

Nobody seems to love Germany. An American concern now threatens to go there and start the mass production of cheap motor-cars.

It would be easy to stop smoking if the men who don't indulge in the habit looked more comfortable.

We'd sooner work than be a Hongkong taipan just now.

The Criminal Sessions remind us that our Judges give quite a lot of time to prisoners.

MacWhirter, he says, the most troublesome pet in our house just now is the alarm clock.

It is dangerous for a chicken to cross the road but not nearly so much as some of these ditches near Laichikok.

You bet some of those people at present on holiday will be mad when they get back and see what a mess of things we've made.

We are forcibly reminded that while loafing is light work, it doesn't pay very well.

Half of Hongkong folk spend their time talking to people about other people.

Looks as if Waichow is in for another bad time. Someone should wire Bertrand Russell about it.

From the look of Ice House Street these days the supply is about as short as some of the speculators.

China's chief export is stainless steel.

Cabbage may be good for one but one all the same we're glad these Chinese cigs are off the market.

Maybe one of the reasons why they ignore Canton is because it is so far away.

One reason why a girl doesn't accept a fellow the first time he proposes, is because she isn't in seven days. But then it wasn't necessary to consult the Foreign Office.

They aren't quite Red in Canton. The mixture is now a kind of burnt orange.

The only aeroplanes we fuss over are those on their way round the world.

Hongkong is only interested in early settlers these days.

A Kowloon man the other night was "vehemently" suspected of being drunk.

It's now no longer a case of being disappointed but plain desperate.

Time was when a run down man took a tonic. Now an ambulance takes him.

Looks as if these ruffian Riffs will soon be refugees.

Of all weeds, the blooming idiot is the hardest to eradicate.

The other term for C.I.D. now, should be "Catching Idiots Department."

We recommend that the Rockefeller Foundation grant five lakhs of dollars for the building of a mental laboratory in Canton.

Seems to us that the difference between a Commissioner and a pirate is hardly worth bothering about.

The Canton Bolsheviks not only believe in giving them liberty or giving them death but giving them both.

Chan King-ming apparently never heard of Sheridan's definition of war.

Although tragic endings seem to predominate in recent novels they don't finish as unappetising as some local cheque-books.

NEW KOWLOON HOSPITAL.

GOVERNMENT'S DISAPPOINTING ATTITUDE.

An Unfulfilled Promise.

Keen disappointment will be felt by Kowloon residents at the Government's decision not to allow general practitioners to attend their patients in the new Kowloon Hospital and the postponement of the consideration of the erection of a separate maternity Hospital in Kowloon.

Correspondence which has taken place between Mr. D. A. Goodwin, the Hon. Secretary of the Kowloon Residents' Association, and the Hongkong Government on the subject, has been forwarded to us for publication. On February 28th, Mr. Goodwin conveyed to the Colonial Secretary a resolution recording Kowloon residents' (assembled in annual meeting) keen disappointment at the Government's proposals regarding the regulations to govern the operation of the new Kowloon Hospital and their desire to press for the following conditions:

1. That general medical practitioners be allowed to attend patients at the hospital in accordance with the Government's earlier promise.
2. That more accommodation be provided for first and second class patients.
3. That the provision of accommodation and staff for the admission of maternity cases is considered imperative, and that steps be taken to provide for the admission of such cases immediately upon the opening of the institution.

Management and Discipline.

The Colonial Secretary in his reply, dated March 11th, stated:

(1) It was originally thought that it would be possible to set apart a portion of the Kowloon Hospital as a Nursing Home, to be run on the lines of the Peak Hospital. On further investigation, however, it has proved that difficulties of management and discipline which such an arrangement would involve are such as to render its adoption impracticable. It is anticipated that the New Nursing Home in Hongkong will provide ample accommodation for all who wish to be attended by their own practitioners.
(2) It has been found possible by making certain rearrangements of the available space to provide more accommodation than was mentioned in my letter of 15th January. There will now be four first class single bedded wards for Europeans containing four beds. It will always be possible, if necessary, to put two beds in each first class ward.
(3) In circumstances of urgent necessity it will be possible to admit maternity cases as all the nursing sisters hold Midwifery Certificates, but it is only in exceptional cases that this can be done.

An Anomalous Position.

The Secretary of the K. R. A. again wrote on May 16—

1. Government having promised to allow general practitioners to attend their patients at this Hospital, my Committee respectfully request fulfilment of this assurance. We are informed that such attendance at the Peak and French Hospitals has proved quite successful. Kowloon residents have now, as always, their own doctors attending them at either the Peak or French Hospitals, and any new Nursing Home in Hongkong cannot, therefore, improve the position of Kowloon residents in this respect.

2. The increased accommodation (of four first class single bedded wards; four second class double bedded wards and one third class ward for Europeans containing four beds) is noted with satisfaction, but is considered inadequate for the population of Kowloon.

3. The suggestion to place, if necessary, two beds in each first class ward is not considered practicable, as each first class patient would expect a separate ward.

4. It is noted that although all the nursing sisters will hold midwifery certificates, no maternity cases will be admitted to this Hospital except in exceptional cases and circumstances of urgent necessity. This appears anomalous, and there is no guarantee that a maternity case, however urgent, will not be refused by the Hospital. As maternity cases demand study and observation of patients for some time before confinements, such patients should obviously be attended in Hospital by their own doctors.

As matters now stand, no maternity case can be sure of admittance to the hospital, even if prevented by typhoon or other circumstances from reaching Hongkong. And if admitted to the Kowloon Hospital, the patient, it would appear, must be attended by a doctor or nurse

MOROCCO VICTORY.

PEACE OFFER WITHDRAWN.

Aeroplanes Active.

Paris, August 21.—Unofficial accounts from Fez dwell on the importance of the encirclement of Toul and Massif and the great part played by aeroplanes in the operations, they carrying out over forty bombardments and contributing more than anything to the submission of the Toul tribesmen. The belief now is general that the French troops who are steadily advancing into the western area will be victorious whenever they attack because they are now accustomed to the country and the peculiar warfare, though the heat is suffocating and the terrain very difficult consisting of giddy heights, inaccessible even to mules.

The Echo de Paris declares that the communist delegation will not be allowed to land in Morocco.—Reuter.

The News Confirmed.

Fez, August 21.—The French victory in the region of Toul is confirmed. The French columns surrounded the whole region and captured all the tribes of Toul, who surrendered. Carrying on, they rapidly reached the valley of the upper Lebén line of outposts established by the Rifians. Aeroplanes effected more than forty bombardments, terrifying the enemy.—Havas.

having no previous knowledge of the case. My Committee instruct me to respectfully convey to you, Sir, (vide 3 of my letter of 25th February) their very strong and decided feeling, on the imperative necessity of maternity wards in the new hospital, which should also be ample and efficient in every respect for the needs of the Peninsula.

Hospitals as Nursing Homes.

The Colonial Secretary replied on June 8th—

With reference to your letter of the 16th May, I am directed to inform you that the Government does not see its way to change, as regards the Kowloon Hospital, the system of management which has prevailed for many years in all Government Hospitals; and has ensured their smooth and efficient working. The Government is fully aware that the system of private practitioners attending their patients in the Peak and French Hospitals is quite successful, but I would point out that these institutions are in the nature of nursing homes rather than hospitals.

2. The layout of the Kowloon hospital has been made in such a manner as to allow for future expansion, and if it is found after experience that the accommodation provided is insufficient for the needs of the population of Kowloon, the question of enlarging the hospital can be considered.

3. It is recognised that in general each first class patient would expect, and should have, a separate ward and every endeavour will be made to ensure this, but it is considered that no great hardship would be incurred if, owing to temporary pressure of cases, it was found necessary to put two first class patients in one ward. This has been frequently done in the Government Civil Hospital without causing complaints.

4. As stated in my letter of the 11th March, 1925, in exceptional cases and in circumstances of urgent necessity maternity cases will be admitted to the Kowloon Hospital and the presence of a typhoon would be considered an exceptional case.

I would suggest also that if a private practitioner was aware of some circumstances in connection with his patient of which, in his opinion, it was of importance that the medical officer attending the patient should be cognisant, he would surely advise the Medical Officer, or if this did not seem sufficient would advise his patient to ask that he should be called in for a consultation.

The Government is not prepared at present to erect a separate Maternity Hospital in Kowloon.

Keenly Disappointed.

On July 10, the K. R. A. further wrote—

My Committee instruct me to express to you, in reply to your letter of 8th June, their extreme disappointment and regret that general practitioners will not be allowed attendance upon their patients in this Hospital and that Government has deferred for the present, the erection of a separate Maternity Hospital in Kowloon.

PRISONER'S DEATH.

INSANITARY CONDITIONS AT LAICHIKOK PRISON.

Improvements Suspended by Strike.

The adjourned enquiry into the death of a prisoner in Victoria Gaol Hospital on August 13, was resumed at the Central Magistracy yesterday afternoon, with Mr. S. B. B. McElderry presiding and a jury of three, consisting Messrs. J. R. F. Corbey, (foreman) C. H. Colton, and J. Ferris.

The evidence of Chief Warder West was to the effect that the deceased, Yung Shing, was undergoing imprisonment of four months for a breach of the Opium Ordinance and was received at Laichikok Prison on June 27 and was removed to hospital suffering from beri-beri on July 16.

Dr. G. W. Pope, medical officer of Victoria Gaol Hospital, stated that he saw deceased on June 23, when he was fit for imprisonment, although of poor physique with signs of having suffered from chronic bronchitis. He was later given half labour and was subsequently returned to duty as fit. He again fell sick with signs of beri-beri and dysentery. The dysentery symptoms improved, while those of beri-beri did not, and the prisoner died on August 13. A post mortem examination conducted by witness showed that that death was due to beri-beri, complicated by pulmonary tuberculosis and dysentery.

Dysentery Epidemic.

The medical officer of Laichikok Prison gave details of the dysentery epidemic which raged in the gaol during May of this year and stated that during the month there were eight cases among the prisoners, none of which was very serious. In June there were 39 cases, and in July the number fell to eight. For August, up to date, there had been only five cases, and he considered that the epidemic was at an end.

There had been two cases among the Indian warders, and one European, in Laichikok, while apothecary Europenn had developed the complaint in the Government Civil Hospital after an operation, and it was quite possible that contact had been made in Laichikok before his removal.

Witness considered that the spread of the disease was due to flies. The gaol was badly constructed from a sanitary point of view, as in the main building, only ten yards separated the latrines and cookhouse. Buckets were used as containers in the former and it was almost impossible to keep flies from these and from subsequently contaminating the food. The flies probably had their breeding place in the village below the prison.

Medical Recommendations.

Captain H. F. Bloxham, Assistant Superintendent of Prisons, gave evidence, which related to the steps that had been taken by the authorities to cope with the epidemic. Witness said he first knew of the outbreak in June and communicated with the P. C. M. O. on June 29. With this official and Dr. Koch, he visited Laichikok Prison and went over the establishment. He received a minute from the P. C. M. O. on July 1, making certain recommendations to deal with the outbreak.

The P. C. M. O. found that the outbreak was due to the infection of food by flies, direct from the latrines, and that the origin of the flies was undoubtedly the Chinese village at the foot of the hill on the eastern side of the prison. He also said that the cookhouse and latrines were in too close proximity.

His recommendations were: (1) The abolition of the village. In connection with this, witness said that the resumption of the village would take place on September 21 next and the swamp surrounding it would be filled in by next year, such reclamation being already approved in the current estimates at a cost of \$15,000.

(2) The removal of the latrines or the provision of adequate fly-proofing. Witness stated that the latter suggestion was being proceeded with, as the removal would be very costly and take a considerable time to effect.

(3) That receptacles for excreta, of a new type with tight fitting covers, should be provided. Captain Bloxham said these were being made in the gaol as fast as material could be obtained. An order placed locally for their manufacture could not be filled, owing to the strike, but it was expected that complete equipment would be ready in about 10 days time.

MISSIONARIES CAPTURED.

EIGHT BRITISHERS SEIZED.

(Our Own Correspondent.)

According to a message from the headquarters of the Church Missionary Society those kidnapped are Bishop H. W. K. Mewell and his wife; the Reverend and Mrs. V. H. Donnithorne; Major F. W. Iles; Miss A. Settle; Miss M. Armfield and Miss C. Carleton.

JEWELLERS' QUARREL.

MANAGER AND EMPLOYEE CROSS SUMMONED.

A dispute concerning the Manager of Messrs. Windsor Brothers, Jewellers, of Nathan Road, Kowloon, and a former employee, was heard before Mr. E. W. Hamilton at the Kowloon Magistracy yesterday, when G. A. Charles, a Ceylonese, summoned F. D. Windsor, manager, for dismissing him without notice and for assault. There was a cross summons against Charles for the theft of two gold \$5 coins of American currency.

Mr. Leo d'Almada appeared for Charles and Windsor was represented by Mr. H. J. Armstrong.

The first summons against Windsor was withdrawn as the matter was stated to have been settled, and Mr. Armstrong produced a certificate which was to the effect that his client was unable to appear owing to illness.

In evidence Charles said that he was engaged in Ceylon by J. A. Windsor to work for Windsor Bros. He had previously been engaged by the shop for three years and had returned to Ceylon in January, 1924. On July 31, he applied for his month's wages, having joined at the beginning of the month, but was refused by the defendant, who, instead, assaulted him with a slipper and turned him out of the shop.

Witness denied the theft of the two gold coins.

His Worship said that the case was a very "fishy" one. The question of the wages had been settled and then no report of the loss of the coins had been made till Charles had taken out a summons. Mr. Armstrong replied that the loss was reported to the police in the afternoon of the same day as the alleged assault. Mr. Armstrong agreed to have both parties bound over, but his Worship replied that he would make an example of the person against whom he should find. The matter should be settled out of Court and he hoped that that would be done before the next hearing.

The case was adjourned for one week.

(4) As an immediate measure, strong disinfectant to be placed in each of the latrine receptacles. This was being done, added witness.

Improvements Delayed.

Captain Bloxham stated further that the P. C. M. O.'s minute had been received by him on July 1 and, with witness's proposals re fly-proofing, was forwarded to the Governor immediately. The approval for the work to be carried out was received on July 3 and the entire correspondence passed on to the D. E. W. on the same day, with a request that the work should be undertaken as soon as possible. A reply was received stating that it would be commenced immediately labour was available.

Mr. S. Hamer, Senior Inspector of Works, giving evidence said that the order for commencing the fly-proofing was received on July 3 and an order given to the maintenance contractor for work to be commenced on July 6. The contractor was unable to carry out the improvements as he had no men available. In normal times, witness said, the work would have been completed within three weeks and he continued to press the urgency of the matter upon the contractor, but it was not until Wednesday last that any work was done on the site. There were now three men working and the job could not be finished in less than a month unless more men were found. It was impossible to push the matter more rapidly. He produced plans which were examined by the jurors.

Without retiring to consider their verdict, the jury found that the prisoner Yung Shing had died as a result of beri-beri aggravated by tuberculosis and incipient dysentery. There was no rider added.

Brighten Your Home

UPSTAIRS AND DOWNSTAIRS

Consider the convenience of having the stairs permanently lighted. Doubtless you have frequently experienced the annoyance of having to switch the light on and off, or having to come down at night to switch off the hall light.

Permanent Lighting with a Philips' "Savelite Lamp" entirely removes this nightly annoyance, and as the Philips' "Savelite" Lamp gives 18 hours light for one copper, the cost of this additional comfort in the home is negligible. It is also a protection against burglary.

Better light with

PHILIPS LAMPS

SATURDAY, AUGUST 22, 1925.

THE CANTON
WEATHER VANE.

While one can sympathise with the late Mr. Liao Chung-hoi's relatives in their bereavement brought about by his assassination, one cannot refrain from pointing the moral of this event, which has come at a time of grave portent for the province of Kwangtung. Political murders are a common enough phase of crime in China, and the continuous plotting and counter-scheming in the South has led in the past to a great deal of this practice of doing away with men who are hated or feared. We have had reason to protest in these columns, on several occasions during the past two years, against the extension of political assassination to the British territory of Hongkong. But we read in the report of this latest crime a deeper significance than ever attached to mere civil war in the South. It is one of the concrete proofs that there is considerable unrest in Canton and opposition to the faction now holding the reins of office, and a sign of the bitter feeling against the "Reds" of the city, whether Russian or Chinese. The weather vane is pointing to a gathering storm, and the first gusts are already being registered.

In considering the anti-Communist element in Kwangtung, however, we must not forget that they are at the moment practically impotent against the men who hold the power of life or death in the province, and have all the fighting forces and revenue-collecting services under their command. Yet we can be permitted to wonder whether the general public feeling, fanned to a mild flame and fed at first on false promises and specious tales of foreign "aggression," has not at length taken a definite set against the coterie at the head of affairs. From conversations we have had with men in close touch with Chinese sentiment, it appears that the hollowness of the Soviet plan and the male fides of the

self-styled "saviours" of the country, are now realised by the masses, and the Kuomintang is greatly exercised over their growing hostility. At the same time it is idle to expect a spontaneous popular revolution to triumph; certainly not without very lengthy preparation. For an early termination of the evil influence that is ruling the district; for a curative operation by which the cancer of Bolshevism and its anti-British outcrop can be cut away, roots and all; outside intervention is absolutely necessary. And we now have definite knowledge that the forces of intervention will not only have little opposition, but will actually be welcomed by a large section of the Chinese people themselves.

Border Incidents.

These recurring border episodes show one of two things; either that it is the official policy of the Chinese military authorities (acting under suggestions from Canton) to harass and annoy the British police force on the border, or that those military authorities are unable to keep control over their own men. When the first border episodes took place a little while back it was simply a matter of Labour pickets being over zealous in their self-allotted task of keeping would-be workers from returning to Hongkong. They interfered with people and, in some cases, proved to be armed. But the latest outrages have been committed by Chinese soldiers and have consisted of the deliberate firing in daylight upon British police—a vastly different matter to what happened a few weeks ago. In the latest case to be reported there was a very cowardly exhibition on the part of the two Chinese soldiers concerned, for they mixed with a number of women coolies nearby and thus prevented the police on the British side of the river from firing back. These two men traded upon the discipline and respect of the men upon whom they had fired; and slunk back into Chinese territory. There is only one way of stopping this kind of conduct and that is for the border police to be given permission to cross the river when any further such incidents occur and administer a necessary lesson on these law breakers of the other side. One realises the difficulty of such a situation and how a small matter might, by indiscretion, be converted into a very serious affair; but our Police Sergeants are trustworthy men and could be relied upon to keep their balance and sense of proportion. We do feel, and there are many with us, that some stern lesson is due these warriors on the border who interfere with civilians, who fire upon British police and then shelter behind defenceless women.

War Debts Problem.

The question of war debts has again been brought into the forefront of current international politics by the publication of the terms upon which the United States of America is prepared to agree to a funding arrangement with Belgium. It would appear that America has been extremely lenient with Belgium, that Italy is now drawing comparisons for her own benefit that France is very anxious that the U. S. should also give her preferential treatment as compared with the arrangement entered into a long time ago between America and Britain, and that Belgium is not so very elated after all, as the payment of the sums suggested might "upset the country's financial equilibrium." Now America comes along and explains that she has given preferential treatment to Belgium be-

DAY BY DAY.

I WOULD HAVE EVERY MAN OF CLOSE OCCUPATION MAKE IT A SACRED DUTY TO KEEP UP A LIVING KNOWLEDGE OF, AND INTEREST IN, SOME PURSUIT, SCIENCE, ART, OR CRAFT, OUTSIDE THE CIRCLE OF HIS DAILY TASK.
—J. Baldwin Brown.

The rate of the dollar on demand to-day is 2s. 4.5/16d.

The P. & O. s.s. Mantua from Hongkong arrived at Marseilles, on the 21st, August.

H.E. the General Officer Commanding has consented to present the cup and medals to the winning team at the conclusion of the final Garrison Cricket League match.

The usual weekly Whist Drives, held in the Sergeants Mess, Murray Barracks, will re-commence on Tuesday next and will be run on every subsequent Tuesday, commencing at 8.45 p.m.

The King's Exequatur empowering Dr. Wilhelm Crull to act as German Consul at Hongkong has received His Majesty's signature, as has also the King's Exequatur empowering Mr. Franz Winkler (Shanghai) to act as Austrian Consul for Hongkong.

The following addition to the Register of Medical Practitioners entitled to practise Medicine in this Colony, is published in the Gazette:—Mr. Cheah Toon Lok, of Ugard Hall, Hongkong, Bachelor of Medicine and Bachelor of Surgery of the University of Hongkong.

Something new in strike propaganda has appeared on the Shanghai streets, Chinese fans bearing this inscription: "The Ninth of May and the Thirtieth of May. Oh you people! What are you doing to remove the disgrace?" The fans are being sold by hawkers at ten copper each but it is not stated whether the proceeds go to the strike treasury.

Zinovii Dossar, the suspected Soviet agent who was detained at Hongkong and sent to Shanghai, and was taken into custody by the Chinese authorities after he was expelled from the Settlement by the Mixed Court, is to be released on instructions from the Waichiaoou, according to reports in the Chinese newspapers. These instructions have followed representations made by the Soviet authorities to the Chinese authorities. The Soviet Consul-General wrote to the Commissioner of Foreign Affairs protesting against Dossar's incarceration and the result is that the City Court of Procuration will release him on bail of \$1,000.

cause of an arrangement (temporarily forgotten) made by the late President Wilson during the course of the Peace Treaty negotiations. Incidentally, none of the Allies are as yet paying Britain anything although Britain's huge debt to America, upon which interest and amortisation charges are being paid, was incurred almost solely on behalf of the Allies. Britain has suggested a wiping out of all debts although she would be a loser thereby. It has to be fairly recognised that it is a big thing to expect the United States to make a present to Europe of all the millions of dollars involved, and that there has been a lot of generosity in America's funding agreements. The most regrettable thing of all, to our mind, is the way certain of the late Allies are falling to face their financial obligations. Not one of these countries is so heavily taxed as is Britain, and there is not a country who has so purposely kept its currency near parity value even though to do so means handicapping exporters who are competing in the great outside markets of the world. This question of war debts and the allied question of balancing budgets will never be solved until the people of all debtor countries realise that there is no easy road to solvency, but only the one thorny road of adequate taxation.

MIXED

—ASHLEY STERNE—

GRILL

—TWISTED TALKS—

Having heard nothing recently from my esteemed friend, Prof. Barmion Crampott, F.Z.S., I called upon him the other day, and learned that he had been very busy inventing a new kind of bee. The Professor's bee has no sting; but against this advantage must be set the disadvantage that the insect won't gather honey, only sawdust. Nor will it live in a hive, but makes a nest for itself in the permanent turn-ups of the Professor's trousers. My learned friend, however, is not discouraged, and is hopeful of eventually perfecting his bee along the lines at which he has been aiming—to produce a stingless insect which shall make honey already put up in jars ready for the market.

He also showed me some designs of a shell-less oyster he hopes shortly to invent, which will exist in its natural state already red-peppered and lemon-juiced—a great saving of labour. He has promised me a dozen for 1st September.

An American professor of psychology has just delivered a lecture wherein he proved scientifically that women are impervious to argument. There is, however, no foundation for the report that the meeting was broken up by a squad of undergraduates loudly maintaining that they were nothing of the sort.

RHYMES WITHOUT REASON.XXIX.

A poor unemployed d'un of Norwich
Went out for some dinner to forwich—
But in order to rhyme
With this poem sublime
Folks gave the man nothing but porwich.

A radish weighing over a pound has been grown by a Lincolnshire market gardener. I can only hope he injected cocaine before he pulled it.

I see that a Hungarian gentleman has started a seventy days' fast, during which nothing is to pass his lips except water—and (I imagine) an occasional regretful sigh when he sniffs the aroma of the Irish stew designed for the nourishment of the rest of his family.

Fasting must surely be one of the dullest forms of amusement known. One doesn't even have the prospect of a good blow-out at the end of it to look forward to since the faster is usually so weak after his long abstinence that he has to have his jaw opened with glove-stretchers and submit to artificial mastication. At the same time I am firmly of the opinion that an occasional short-fast does us all good, and for years past I have made it a habit to eat practically nothing after meals, and nothing whatever when I am asleep. This, I may add, is the secret of my "school-girl complexion."

"Londoners make capital farm-workers," says a Canadian agricultural paper, "but they take a long time to settle down." On the other hand, London tailors are unanimously of the opinion that they take a long time to settle up.

After a somewhat lengthy correspondence on what should today constitute the Seven Wonders of the World, a prominent daily is now discussing what constitutes the Seven Eyesores of the World. It is some years now since I got a fortnight off from the office and did the world thoroughly, but I nevertheless fancy that the

following Seven Eyesores will take a lot of beating:—

A flapper with a monocle
Six pairs of Oxford trousers.

THE LAST STRAW.

(Hatters say that the present summer will see the final passing "of the straw boater.")

Farewell, old tile of best hand-plaited straw!
I part from you with tears of bitter anguish;
You, too, must pass down Fashion's gaping maw,
And in unmerited oblivion languish.

You in your prime were such a splendid sight!
My favourite summer hat among all others!

How proud I was of you, so clean and white,
That day I bought you at—I think—Hope Brothers!

Now, dear old boater, we must say good-bye!

For ever, anyway, so say the hatters.

Yet shall I never forget how you and I
Once featured at the principal regattas.

Adieu then, friend of many a summer day!

No more shall I the old Club colours hem o

Your time-worn crown, nor seek to clean away

Your cumulated dust with salts of lemon.

Yet it may be that once more you and I

Shall meet ere memories grow cold and barren;

I somehow feel that Fashion won't apply

To scarerows in my little kitchen garden!

I was reading the other day about a man in a Vienna mental asylum who talks backwards, and this caused me to jot down one or two other cases of extraordinary mental lesion I have heard about. In a certain home there is a patient who spends all his time sitting in a rice pudding; he thinks he's a stewed prune. In another there is a man who walks about with an orange on his head under the delusion that he is, a recurring decimal, while a third occupies himself with cutting the hyphens out of the newspapers with the intention of using them as porches for parrots. And? Indeed, yes; almost as sad as the case of a young fellow I know, at present outside an asylum, who is doing his best to disfigure his face by growing a set of torador's whiskers. By comparison, the man with the orange on his head seems almost distressingly sane.

NOTABLE SAYINGS OF
THE WEEK

"After all, silk is only skin-deep."
—Mr. Windmill Churston.

"We live in a different generation from Queen Ann."—The Bishop of Milk and Sodor.

"If you ask me what constitutes the electron, I can unhesitatingly answer, 'Yes'."—Sir Gulliver Stodge.

"The crisis is getting critical."
—President Toolodge.

"Patients are a virtue."—Dr. Codley Veroyale.

"Heterococism is but a hyperbolic endoxia of isogenous pantatroph."—The Vice-Chancellor of Borstal.

Latest Command Orders state that Lieut. D. J. All rec, East Surrey Regiment, has been promoted Captain, dated June, 10th.

The silk which left here by the P. & O. s.s. Mantua on the 25th July, was delivered in Marseilles on the 21st, August, a transit of 27 days.

Wider and loftier railway Pullman coaches of an entirely new type that will not tele-cope in a collision are now running from King's Cross to Edinburgh. The coaches reach the maximum possible for British railroads; just permitting a very small margin when passing through some tunnels.

MOTORING SUPPLEMENT

OF
THE HONGKONG TELEGRAPH.

SATURDAY, 22nd. August, 1925.

(Being the Official Organ of the Hongkong Automobile Association.)

LOCAL MOTOR NOTES & NEWS

Traffic Control.

At certain points in the city, two traffic constables are usually on duty, two instances being Des Voeux Road at Pedder Street, and by the statue at the Praya end of Pedder Street. The object is of course quite clear, being to afford better traffic-direction by means of co-operation between the two officers. Perhaps it is not always easy to find two great traffic control minds which think alike, but it is a bit confusing for a driver when those two minds have but a single different thought.

Roadside Parking.

It is becoming quite a common practice among some motorists to bathe at some of the little beaches which are easily accessible from various points of the Castle Peak Road. This is, of course, all very nice, but thought is not always exercised when the car is left by the roadside. Since last drawing attention to a similar matter, we have heard several complaints concerning this thoughtless parking. It is a trifle dangerous to round a corner and suddenly find a stationary car obstructing the road, especially if another happens to be coming towards one. The remedy is merely a matter of parking with a regard for other road users.

And Roadside Blasting.

Between the Tsin Wan village and that landmark known as "Ormes House" a considerable amount of reclamation is in progress. The usual hillside cutting and blasting is of course a feature, as is also the man who does the tom-tom act with the red flag. The other day, a local motorist, taking a spin in the pool of the evening, came upon the individual in the midst of his act. Thinking discretion the better part of valour, the motorist proceeded to back his car a few yards. He had hardly stopped when quite a barrage was fired just at the rear of his car. At the same time another exhibition of rock shattering commenced immediately in front of him. Fortunately, none of the flying fragments struck the car or occupants, but such experiences are not desirable, and would not occur were a tom-tom merchant stationed at either end of the operations a few minutes before the charges are fired.

That Sheko Road.

Some time ago we published an article which suggested that roads in outlying districts would be kept in better condition, if labourers were appointed whose duty would be to pay constant attention to certain stretches of road. The plea was under the heading of "The Man With the Barrow," and it was suggested that the method employed by most County Councils in the British Isles, might be employed with good result here. Last week, another local motorist asked us to make a further plea for early attention to the Sheko Road. He pointed out that for months past, this road has become gradually worse, without any serious attempt at remedy. It certainly seems unfortunate that such a desirable motor road should be allowed to get from bad to worse, and admitting that the heavy rains of the last few months are in the main responsible, such a cause cannot be pleaded as an excuse for ever. Possibly, technical difficulties exist which we do not understand.

but whatever the cause of delay, we do suggest that, in order to justify the expense in building the road, it be made passable for motor traffic, for which it is to be presumed, it was intended.

Engine Tinkering.

Hongkong motorists generally will have been much interested in the case which came before the Summary Court in which an Indian driver sued his master for wrongful dismissal, because during the hearing of that case it was proved that the man was caught driving other Indians in the car without the knowledge or permission of the owner. The plaintiff, who made unsubstantiated allegations against Mr. A. H. Rowe, who caught him in the act failed in his claim, it being held that his master had a right to discharge the man for his wrongful act. There is no question that the practice of taking friends for joy-rides is far too common among the chauffeurs of this Colony and one to which a stop must be put. But, even more serious than that, is the incorrigible habit among nearly all native chauffeurs of interfering with the adjustments of cars even when in thorough-going order. New cars are sold, in most cases, under a six or nine months' guarantee, and should anything go wrong in that interval of time it is the seller's duty and obligation to put it right. But when drivers, whose mechanical knowledge is the most elementary kind, will persist in readjusting first this and then that without the slightest necessity and only in order to satisfy their own curiosity, it is time that remedial action was taken whenever opportunity offers. It is estimated that something like 90 per cent. of the minor motor troubles of Hongkong are caused by drivers who are unskilled in mechanism and yet who will persist in tinkering with cars—especially with new ones. We think it will be generally agreed that Mr. Rowe performed a useful public service when he took note of the incident which gave rise to the subsequent court proceedings.

Popular Light Cars.

During the past year, British light cars have become very popular in the Colony. It was rather a curious fact that previously, the majority of cars here were of the heavier touring type, although in every other part of the British Empire for many years past, there has existed a strong demand for the smaller machine. Manufacturers have set themselves out to cater specially for the Colonial market with the result that to-day, the competition in the light car class has brought prices down to-day, to an extremely low level, while at the same time, the standard of quality is extremely high.

The 10-26 "Singer."

Yet another light car manufacturer has appointed agents in Hongkong, the makers in question being the Singer Factory. Well in the front rank of exceptionally good light cars, both in the British Isles and Europe, the latest "Singer" is sure to become popular in this Colony. Next week we hope to give details of the models which have already arrived here. Messrs. Gilman & Co., Ltd. are the agents.

LATEST BRITISH TWO-SEATER AEROPLANE.

Capable of being housed in an ordinary garage, "The Moth," a tiny De Havilland plane has made its appearance in London. Propelled by a 27-horsepower engine it has a maximum speed of 60 miles an hour. Its fuel consumption is 20 miles per gallon and it carries two persons. It is 23 feet 6 inches long and can be folded up so its width is but 9 feet 8 inches.

"Disturbing the Peace."

The peace of residents in the Annex of the Peak Hotel is all too frequently disturbed by some thoughtless motorists who arrive in the vicinity at any hour between midnight and 2 a.m. Apparently, the chief cause for complaint is that some drivers resort to the objectionable practice of blowing the horn to arouse the man who sleeps in the garage. The effect of this noise on residents sleeping within a few yards can be imagined, and surely it would not be too much trouble to install a bell to the caretaker's room. With regard to the occupant's of the cars themselves, it might be remembered when making remarks, that people are sleeping nearby.

AND ORDER FLOWERS.

FUEL PROBLEM.

AMERICAN ENGINEERS SEEK SUBSTITUTES.

Uncle Sam is still looking for a substitute to be used as an automobile fuel when gasoline gives out—if it ever does.

The Federal Oil Conservation Board has sent out a questionnaire to automobile engineers seeking their opinions on possible substitutes for gasoline.

With the daily use of about 20,000,000 gallons of gasoline, the board advises these men that America's resources are rapidly diminishing. One of the questions is—

"Could alcohol for motor fuel purposes profitably be made from grain grown for the purpose in quantities sufficient to affect the demand for gasoline?"

A similar question refers to the use of potatoes or other vegetables grown for alcohol.

Another power is—"What is the relative efficiency in motor propulsion of gasoline and (a) alcohol, (b) benzol, (c) mixtures of gasoline and alcohol, (d) mixtures of gasoline and benzol?"

CAMELS GOING.

Arab sheiks are taking to automobiles. Camels are going out of style, even in the desert areas. Proof is the continued requests from the Near East for motor cars.

MOTOR TRIPS ABROAD. A 1000 Year Old Castle SECOND OF A SERIES OF TRAVEL TALKS

Unarmored, Guy of Warwick slew the 18 foot long, 18 foot high dragon on dragon, says legend.

Photo Courtesy Chrysler Maxwell Motor Corporations
Warwick Castle at Warwick, England, on easy motor trip from London

IT WAS Scott who said of Warwick Castle at Warwick, England, "the fairest monument of ancient and chivalrous splendor which yet remains unimpaired by time." This marvelous castle which has attracted hundreds of American motor tourists in England to Warwick, stands on a rock overlooking the Avon. It is said to have been founded in 918 by Ethelred, the daughter of Alfred. In the war with the barons in the time of Henry III it was destroyed except

the towers. Thomas de Beauchamp, in the reign of Edward III, restored and strengthened it and his son built Guy's Tower in 1394. James I gave it to Sir Fulke Greville, who spent 20,000 pounds—\$100,000—an enormous sum for that time—in repairing and adorning it. It has been the property of the Grevilles ever since. The gardens surrounding the castle are worth travelling hundreds of miles to see.

ABSOLUTELY BALLOONATIC!

A balloon-type equipped bicyclist and its baby brother appeared on the New York streets recently causing folks to inquire, "What next?"

Uniform in quality, with unusual power, life and efficiency. A size for every automobile.

Storage Batteries

Mobiloil

Make the chart your guide

In these days of rigid economies, the motorist who desires to attain to the greatest efficiency and economy in the operation of his car must consider closely the cost, the quality, and durability of the lubricating oil used.

Friction has been described as the "Highway robber of mechanical energy," levying tribute on all matter in motion, exerting a retarding influence and requiring power to overcome it.

When one realizes that if it were not for the thin film or layer of oil between the surfaces of the journals and their bearings, and the constant supply of lubricating oil required to maintain this film, the largest locomotive could not start a heavy train or keep it in motion, or the most powerful marine engine could not drive a ship one mile without heating of bearings, one readily understands that a knowledge of lubrication and friction and the laws relating to friction is a very important part of an oil manufacturer's knowledge.

Gargoyle Mobiloil is the result of many years of experience in the manufacture of lubricating oil, and the correct grade, as specified in the Chart of Recommendations representing the work of a score of automotive engineers, will ensure more mileage per gallon of benzine, minimum of friction and more power, elimination of unnecessary repairs which are so frequently due to inefficient lubrication, and long life of the engine.

Obtainable at all Garages and Accessory Dealers everywhere.

VACUUM OIL CO.

Effective immediately, we announce the following VERY SUBSTANTIAL REDUCTIONS in our delivered prices of HUDSON and ESSEX Motor Cars:

SIX CYLINDER ESSEX REDUCTIONS.

5-passenger Touring -	\$100.00
5-passenger Coach -	\$150.00

HUDSON SUPER-SIX REDUCTIONS.

5-passenger Coach -	\$250.00
7-passenger Sedan -	\$250.00
7-passenger Touring -	\$500.00

The old and the new delivered prices of the various HUDSON and ESSEX models are as follows, all prices being in Hongkong Currency:

SIX CYLINDER ESSEX: Old Price: New Price:

5-passenger Touring -	\$2,500	\$2,400
5-passenger Coach -	\$2,650	\$2,500

HUDSON SUPER SIX: Old Price: New Price:

7-passenger Touring -	\$4,000	\$3,500
5-passenger Coach -	\$4,000	\$3,750
Brougham (New Model) -		\$4,350
7-passenger Sedan -	\$5,000	\$4,750

In the month of April, Hudson-Essex manufactured and shipped more six-cylinder automobiles than any manufacturer ever made before in a month's time.

THE SUCCESS OF THE BUICK COACH

The Buick Coach is a real closed car—built to Buick's high standards of closed car comfort, sturdiness and appointment. The Fisher body shows the graceful lines of the finest enclosed types. The two wide doors, hinged at the front, enable rear seat passengers to enter or leave either door without disturbing people in the front seats. Duco finish. Different colors for each of the two coach models.

And the price! Never before has it been possible to have a closed car with these quality features at such low cost.

For Demonstration.

Please call or Telephone C. 1036.

HONGKONG & KOWLOON TAXICAB CO., LTD

33 & 35 Des Vœux Road Central.

Hood rattles and body squeaks can be stopped by the application of strips from an old felt hat between the moving parts. The shoulders along radiator and cowl, where the hood rests, are among such parts liable to cause squeaks. The felt will stick best if glued down with silicate of soda, or water glass.

FUTURE HEADLIGHTS!

TILTING SUGGESTED.

The Illuminating Engineering Society of New York, an organization which, as its name implies deals with every phase of modern lighting, has been making tests with a patent tilting device for headlights. The result is a prediction that tilting will solve the vexed question of dimming, which, incidentally, is illegal in the State of Massachusetts. The effect of tilting is to shorten the beam of light sufficiently to render it effective, while at the same time cutting off the direct glare from approaching vehicles.

Tools underneath the front seat may be safeguarded against theft by the attachment of a steel band and lock now being manufactured. The band is hinged to the rear of the seat and bends over to be locked in place against the bottom.

PALESTINE TO BAGDAD.

MOTOR SERVICE ACROSS DESERT.

Recent discoveries of oil in Persia and Iraq, the land about the Tigris and Euphrates rivers, and the centuries-old impetus of commerce to shorten the route from the Western world to Persia and India, have resulted in the establishment of a permanent motor car route from the Mediterranean shore of Palestine to Bagdad, in the heart of Mesopotamia.

The service has been established by the Nairn Transportation company, Beirut, Syria, and a large fleet of Cadillac cars is used in covering the 603 miles of desert travel from Beirut, via Damascus, to Bagdad. Heretofore there has been no direct route to Bagdad and the East excepting slow camel travel. The new service brings the Mesopotamian

city within nine days of London and within forty-eight hours of Port Said at the entrance to the Suez canal.

The entire trip is covered in less than twenty-four hours of actual running time. There is an overnight stop at Damascus and with other stops for meals enroute, the journey is completed in sixty hours of actual time. The sea route by way of the Suez canal and around Arabia requires eighteen to twenty-one days and the overland camel caravan requires seven to eight weeks.

At the Bagdad end of the route, also, connections are made with the railway which runs southeast to Basra, on the Persian gulf, and also northeast to the Persian border. In this way travellers who wish to tap the commercial resources of northern India and Persia are greatly benefited.

The motor trip from Beirut to Bagdad is one of hard travel and hazardous going for the sturdiest cars, both on account of the excessive heat and the wadi, or dry river courses, which are deep and stony and encountered at unexpected places. At certain

times of the year, also, the Tigris and Euphrates rivers overflow their banks; the whole district of Hamadi becomes flooded and cars must be driven for hours hub-deep in the mud.

Cadillac cars of seven and nine-passenger capacity have been found particularly adapted for the work. The heat is extreme. There is a climb of 1200 feet between Bagdad and Damascus. Although the cars are driven at top speed, it has been found unnecessary to replenish one drop of water in the radiators during the more than 1200 miles of the round trip.

The running boards of the cars are occupied by 34-gallon gasoline tanks which, with the standard 20-gallon tanks in the rear, give each car a gasoline storage capacity of 90 gallons.

A new twenty-page illustrated booklet called "The Desert Mail" with a map and illustrations has just been published by the General Motors Export company. It tells the story of the development of transportation in this 600-mile strip of land which betwixt and separates the civilization of the East and the West.

AUTOMOBILE CARAVAN.

AEROPLANES AND AUTOMOBILES MAKE PILGRIMAGE TO WASHINGTON.

G. A. TYLER (LEFT) CARAVAN FLYER

Aeroplanes and automobiles took part in the Maccabees international automobile caravan which proceeded to Washington last month from every corner of the United States and Canada. The Maccabees caravan is said to have been the largest tourist

movement ever organized by motorists. On entering Washington two abreast, the cars formed a procession ten miles long. The above picture shows one of the members who flew from San Francisco in less than fifty hours actual flying time.

BROKEN GLASS SERVICE.

An automobile company of Birmingham, Ala., has added a city-wide service for keeping the streets clear of glass. The company is operating motorcycle cars which carry a side car to receive the glass that is swept up.

CANADIAN EXHIBITION.

Canada's annual national exhibition, which draws motorists from most of the United States will be at Toronto from Aug. 29 to Sept. 12, this year. This is one of the greatest national fairs in the world.

HEADLIGHTS!

You may think yourself a very careful, considerate auto driver. But before you plume yourself too highly, ask yourself one more question, how do you handle your headlights?

Do you always dim them on approaching another car? Do you always keep them dimmed except when there are no other cars coming and you can't see to drive without having them on full tilt?

If you don't you can't qualify as a considerate driver. Bright headlights are a menace to everyone else on the road. Keep 'em dim.

And don't depend too much on glass lenses that are supposed to diffuse the glare and render it unobjectionable. Most of them are pretty nearly as blinding as any other kind.

STABILISING DESIGN.

Automobiles bought to-day will not look much different from the cars to be bought in five year's time. This is the promise made to prospective motorists by American manufacturers who have decided to stabilize the design of their products.

Packard, Dodge, Ford and several others have long adopted this policy. There are no more annual models in these factories. Instead, new features are added, or improvements made, whenever they happen to be ready for practical use.

Studebaker is another addition to this group of manufacturers. According to Mr. J. N. Willys, a leading American manufacturer, the "one Year" car is passing out of the picture, and in its place is coming the car with longer life and more stable design.

DUNLOP

CORDS

When purchasing a tyre BE GUIDED BY THOSE WHOSE BUSINESS IT IS TO KNOW, AND WHO DO KNOW.

The fact that 95% of British Car Manufacturers fit DUNLOP tyres as standard equipment is a striking tribute to the superiority of the Dunlop tyre.

Behind the Car manufacturers' choice is their practical knowledge of tyres and tyre values.

THE LATEST PEDESTRIAN CATCHER.

Here's a new type of bumper that offers joy, rather than sorrow, to the pedestrian. Whoever is bumped gets a free ride. It's designed to catch the unfortunate pedestrian who happens to be hit and keep him out of the way of the wheels.

PNEUMATICS VERSUS SOLIDS.

EDINBURGH EXPERIMENTS.

Extensive tests of the mileage costs of pneumatic and solid tyres, made by the Edinburgh Corporation Tramways Department, tend to show that pneumatics are more economical than solids and that vehicles equipped with air filled tyres consume less gasoline.

The Tramways Department operates a large fleet of motor buses on which careful records are kept. According to a report just issued by the Chief Engineer, tyre mileage costs approximately 24% less when pneumatic tyres are fitted instead of solid tyres. Gasoline consumption was also lower, while an interesting comparison reported was the relative braking efficiency. A solid tyre bus running at 15 m.p.h. could not be brought to a standstill in less than 34 feet, whereas pneumatic equipped vehicles could be stopped in 18 feet.

The question of road wear and tear does not appear to have been considered, but from observation we should say that pneumatics are not nearly so damaging to road surfaces as solid tyres appear to be. In any case, the above comparisons should prove enlightening to owners of commercial vehicles who still believe that solid tyres are the most economical. For the sake of our roads, we hope that the Government will stipulate pneumatic tyres when next placing orders for motor lorries, and furthermore equip present solid tyre vehicles with pneumatics where possible.

HAPPYLAND.

Greetings, young man! Do you own a machine?

But if you do, that your interest is keen.

Isn't it great, when you drive in the air?

And shed all your worries and frettings and care?

Twasn't so long, since we rode in a hack,

And couldn't go far, or we'd never get back.

Horses and buggies were once at our call;

But the motor have driven them all to the wall.

Automobiling, you'll have to admit,

Through bringing us pleasure, has made a big bit.

But you can't mention a thing that you've tried—

That rests you and pleases, like taking a ride?

Yet, it is true, as you travel along,

You're mad as a hatter if something goes wrong.

A tyre may blow, or the engine go bust;

'Tis then that your motor is thoroughly cursed.

Try and be fair with your blooming machine.

Don't let mere trifles lead up to a scene.

When there's a mishap, just fix it and then.

Hop in your car and go riding again.

H.C.

COMMERCIAL ROAD.

Pennsylvania plans to build a special commercial highway between Chester and Philadelphia to accommodate heavy trucking. It will almost parallel the existing road between these cities.

A SUGGESTION.

BLOCKADE THE CANTON RIVER.

To the Editor of the North China Daily News.

Sir,—You have spoken the true word in your leader of this morning's issue. "Blockade the Canton river and the adjacent coasts." The "Red" government of Canton has, as you say, declared war on Britain. If Canton river was blockaded, Chinese ships it would be on its knees in a week. So would truant Swallow, Amoy etc. There is no need to interfere with the ships of other nations and the thing could be done as easily as turning one's hand. The more rabid Chinese papers, now suppressed, used to make a point that it was necessary to "so tian o-men li chan-hien" shorten our battle front. The papers have been suppressed but the policy still goes on. This is why Americans are being flattered to the no small disgust of most of them. Even the Japanese devil is now found to be not so black as he was painted. The twenty-one demands and the days of humiliation have vanished into the Chinese five minutes limbo of forgetfulness. This is all to the good, but the cajolery proceeds from no sincere good feeling. It is the policy of "shortening the battle front." We have an effective means of retaliation at hand. Why not adopt it?

I am, etc. SENSE.
Shanghai, Aug. 12, 1925.

EUROPEAN SHOT.

SHANGHAI BANK ROBBERS DEED.

Shanghai, August 21.—Three robbers this afternoon in a hired motor car drove to the International Bank. One got out and awaited the exit of an assistant carrying a large sum of money. He held up the assistant and got the money. He was discovered by a watchman who fired at the robber who fled towards the Bund pursued by the police. The robber threw the money away when he arrived at the Bund where he was stopped by Mr. Herbert Perry, formerly of the municipal electricity department at whom he fired three shots at point blank range, wounding him in the region of the heart and shoulders. The robber jumped into the Whangpoo river where he was shot by an Indian constable and sank. Mr. Perry was rushed to the hospital. In the course of the running fight the robber slightly wounded a Chinese pedestrian. Mr. Perry's condition does not appear serious.—*Reuter*.

MARSHAL PETAIN FOR MOROCCO.

Gibraltar, Aug. 21. Marshal Petain has arrived at Algeiras aboard the French steamer Marechal Lyautey. He was greeted by Gen. De Rivera, after which he proceeded to Morocco.—*Reuter*.

SHANGHAI KEPSAKE.

Last Wish Of French Suicide.

The suicide on Newhaven Quay, on July 11, of a Frenchwoman, Adeline Augusta Eudonie Philip, age 38, who shot herself on being told she would be deported, produced a verdict at the inquest of "temporary insanity." She had crossed to England by the night boat from Dieppe. Her answers to questions about the reasons for her visit were considered unsatisfactory and she was told she would have to return by the next boat. When placed in the detention room in charge of a woman she produced a small doll, which she asked might be turned with her. She went to her luggage, the person in charge thought, to re-locate the doll, which she said had been given to her by a gentleman in Shanghai. Almost immediately the report of a firearm was heard. The woman had shot herself. She stated that she had come over for employment, and to visit the grave of her lover.

HONGKONG FOOTBALL ASSOCIATION.

QUESTION OF REFEREE'S FEES.

Annual Meeting Discussed.

The annual meeting of the Hongkong Football Association was held yesterday evening at the Hongkong Volunteers headquarters, Mr. J. McCubbin presiding. Others present included Messrs. G. T. May, J. R. Hamilton, R. Hall, F. T. James, F. Smith, Mok Hing and secretary and treasurer, Mr. W. E. Hollands.

The report and accounts for the past year and for the interport last season having been adopted unanimously, the following officers were elected.

President, Mr. G. T. May, Vice-presidents, Messrs. R. Hall and T. McTavish; Hon. sec. and treas., Mr. W. E. Hollands; Councilors, Messrs. J. McCubbin, Mok Hing and F. Smith.

A Siamese Celebration. A letter was read from the British Legation at Bangkok asking if it would be possible to send football teams to compete in international matches at Bangkok next February at an exhibition being held to commemorate the fifteenth anniversary of the reign of King Rama VI of Siam. It stated that similar requests were being sent to Rangoon, Singapore, Batavia, Manila and Saigon.

The chairman commenting on the letter said if it was at all possible he thought a team should be sent but before the Association bound itself in any way it should be well considered. They must remember that they were due to send a team to Shanghai next February. After discussion it was decided to leave the matter in the hands of the council to arrange.

A Fictitious Story. Other letters were read from the Football Association, London, with reference to enclosures from "The China United Soccer Association," Wanchai Road. These enclosures described in purple terms the virtues and accomplishments of the association's teams and asked the English association to arrange matches for them in a forthcoming tour. They were all signed by a Mr. Juster.

In discussion it was stated that the only known Football Association in South China was the South China Athletic Association the members of which were ignorant of the existence of such an association. It was decided that before a reply be sent to London informing the English association of the non-existence of such association a letter be sent to Mr. Juster asking for an explanation of his action.

Other correspondence included a letter from St. Dunstan's thanking the association for a donation of £51 and also receipts from local charities for amounts received from the Association.

Mr. R. Smith then raised the question of payment of referees. He asked if anything had been done in the matter of increased fees. They all knew that last season a referee often had to take two matches in one afternoon for a paltry 82 a match. He understood that the gatekeepers got a bigger fee than this. He was not asking for gatekeepers fees to be reduced but for referees to be increased. At some matches where there were so many as 2000 paying spectators the referee only got 82.

This provoked a great deal of discussion in which the chairman, Mr. G. T. May and others joined, the general opinion being that referees ought to receive more. It was proposed and carried eventually, that referees be paid a bonus of 81 a match for each match they took part in last season.

Grants. On the proposition of Mr. May it was decided to grant to the Hongkong Football Club the sum of 8200 towards the cost of the alterations to their stand, the proposer remarking that the club had very generously put their ground at the disposal of the association for interport matches and largely for that reason had increased the size of their stand. Mr. McCubbin remarked on the success that had crowned the years work of Mr. Hollands as secretary and proposed that a sum of 8200 be paid to him from the interport account.

Telephones in Canada at December 31, 1924 numbered 1,039,964 as compared with 1,022,782 in the previous year. This places Canada next to the United States in the number of telephones in use on a per capita basis. By provinces the distribution was as follows: Quebec, 208,629; Ontario, 476,054; Prince Edward Island, 4,240; Nova Scotia, 39,265; N. W. Brunswick, 28,307; Manitoba, 66,965; Alberta, 67,457; British Columbia, 89,310; the Yukon, 350; unknown and unaccounted for, 5,131.

CONSIGNEE NOTICES.

THE BEN LINE STEAMERS, LIMITED.

FROM MIDDLESBRO, ANTWERP, LONDON AND STRAITS.

The Steamship "BENVENUE" Consignees of Cargo are hereby informed that all goods are being landed at their risk into the hazardous and for extra hazardous godowns of the Hongkong and Kowloon Wharf and Godown Co., Ltd., whence, and/or from the wharves, delivery may be obtained.

No claims will be admitted after the goods have left the godowns, and all goods remaining undelivered after the 29th inst. will be subject to rent.

All claims against the steamer must be presented to the Under-signed on or before 8th Sept., or they will not be recognised.

All broken, chafed and damaged goods are to be left in the godowns, where they will be examined on the 29th inst. at 10 a.m.

No Fire Insurance has been effected.

Bills of Lading will be countersigned by

JAPAN AND CANTON'S SHIPPING EMBARGO.

AWAITING OFFICIAL NOTIFICATION.

Tokyo, August 21.—The Foreign Office states that it has not yet been officially informed of Canton's embargo against shipping. Discussing Japan's probable action the spokesman doubted Canton's ability to enforce the prohibition. If they use force Japan would probably send a joint note with Britain to Canton, with a copy to Peking, but action is not likely otherwise.—*Reuter*.

SNAPPY BATHING SUIT.

Here's a snappy bathing suit of black lace over tan satin with a flippant ruffly skirt of changeable blue and green tuffeta.

Canisters for bath salts, door plates, and cupboard knobs and door handles that follow out the same decorative designs are being used by many up-to-date furnishers.

IDEAS FOR POCHETTES.

Among the many dainty pochettes, perhaps the most exquisite are those made of Aubusson and Petit Point embroidery.

Aubusson needlework dates from the 8th century, when it was introduced by the Saracens, who became famous for it. It is embroidery in silk and wool on a linen foundation.

Petit Point is the finest embroidery made. It somewhat resembles tapestry, but the individual stitches are so tiny as to be almost invisible.

Some of these designs simulate wonderful Persian carpets in miniature; others are worked with bunches and borders of flowers in natural colours, or Watteau-like scenes.

Other envelope bags are glittering things made entirely of rows of brilliant beads. Paste—diamond, ruby and emerald—imitation pearls and coral beads, are used to vary the designs.

THE LATEST WATCH NOVELTY.

The wristlet watch is such a practical as well as decorative accessory that it is likely to remain in popular favour with women for an indefinite number of years. But, for those who wish for novelties, the watch makers have just launched the quaintest and most original of models. This is a watch that is modelled on the shape of a man's collar button. The dial of the watch is on one surface and the other is pushed through the buttonhole of the lapel of one's coat or jacket.

We already had the fob with us, now comes this new masculine eccentricity.

Watches of this sort are necessarily tiny, but they are extremely well made and carry a certain guarantee with them. They are made of gun metal usually, or else of gold studded with brilliants. It remains to be seen whether the watch boutonniere will become as great a favourite with smart women as the watch bracelet.

Three smart frocks that show the effective use of fine lace.

BATHING FASHIONS.

No material is counted too gay or colour too bright for bathing dresses.

Taffetas is, of course, first favourite, although a vividly coloured Milanese silk bound with cretonne is a close second. A novel idea is to have several tunics of cretonne or some brightly hued silks to slip over a simple costume of stockinette.

If you prefer a plain gown the trimmings can be wonderful. Lively-looking sea lions and dragons chase each other round skirts, while swarms of realistic fish are often found sporting themselves. Plain taffetas finished with plain ribbons is much admired and looks most attractive in the water, for materials are so treated that they keep their colours even when wet.

Rubber is a popular trimming, and rubber flowers are found ornamenting tremendous cape collars. Parasols galore are to be found, mostly of linen with fantastic animals applied into position with narrow strips of leather; while, of course, cretonne as usual is much to the fore.

Bathing caps present endless ideas. They can be entirely covered with rubber flowers or adorned with a bewitching little poey over each ear. Helmet-like affairs are kept secure with ribbon chin straps which finish in a huge bow on the elongated crown, and if none of these ideas appeal to you there are the skull caps of rubber to be beautified with swathed Paisley scarves, which are fastened with Oriental clasps.

WAYS WITH SHOULDER STRAPS.

Very wide shoulder straps have gone out of fashion, for the supports of one's lingerie, should be retiring rather than obtrusive, as they are when broad. But narrow straps are frail, as the golfer, the dancer, and the tennis player knows so well. An ingenious method of solving the problem is to sew into the garment four tiny pieces of silk elastic at the points where the straps join. The free end is then joined to the strap, so that when there is an extra strain upon it there is a certain amount of give which saves both the strap and the lingerie.

The straps of evening lingerie must never be seen, but many women cannot stand the constriction of having their undergarments run through with elastic in lieu of shoulder support. Practically invisible is the strap of flesh-pink georgette pleated edged, and fairly narrow. Half a yard of material will provide a plentiful supply.

A DAINTY FROCK.

This dinner frock is of beige lace and beige crepe georgette trimmed with a large ornament of rhinestones and pearls. The close bodice and full skirt make the combination that Paris decrees at the present time, and the panel sash breaks the line and adds interest.

Papier mache powder bowls are also decorated with hand paintings, or else with little plastic mouldings made to follow the cretonne designs and then painted in colours.

THE OGRE OF FEAR.

Fear is a terrible thing. A child never knows fear until it is taught to be afraid. And one of the most cruel and senseless things that well intentioned parents do is to teach their offspring to be afraid. "Take care, you'll fall!" a mother will say to her young son who is running around after the fashion of a sure-footed mountain goat. It would be better for the child to have a bump or two than to acquire the habit of mind that makes him constantly on the look-out for some hurt or other. Then there is the fear of the dark. Almost all children have it. The ogre in the fairy tale book is hidden in the corner of the room they imagine or perhaps Bluebeard himself.

Children shouldn't know about such dreadful fignents of the Grimm Brothers' imagination. The mother who sits down in the dark sleeping room, and quiets her child's mind by a cheerful lullaby or a happy sort of story is giving him strong nerves for his grown-up years later on. And there will be no nightmares to fill his baby dreams with horror! Then there is the "daddy" bug, hear, "I'll tell your daddy when he comes home, and he can punish you!" How often we've heard mothers say this! One wonders if they realize what an effect this has on a child's mind to keep it in a fear of daddy's homecoming all day long. If they stopped to think they'd never do it. They'd try to keep their children's mind free from fear... which when you look at it clearly, is a kind of moral disease.

SILK LINGERIE.

Silk voile, with the cotton variety for those who cannot afford the other, is a very popular material for lingerie. It is thin, so that it takes up little space, and silky enough to allow the dress to slip easily over the figure. Needless to say the petticoat is a vanished garment, and dresses are worn straight over the knickers and singlet.

Crepe de Chine, too, is used a great deal, as it washes and lasts so much better than the voile, although it is perhaps dearer to start out with.

Quite straight lines prevail in the singlets, the Empire pattern being the most favoured, leaving off under the arms and finishing with narrow straps over the shoulders. An edging of doubled net is all that is needed as a trimming.

EVENING DRESSES.

Evening frocks, while continuing to follow the slender lines of the figure, are elaborated in a great variety of ways. They have deeply scalloped hems, or scarlet-pointed draperies, at each side; they sometimes have uneven skirts which are considerably longer at one side than the other.

The glorious materials of which evening frocks are made are frequently veiled with lace or gauze, and sometimes the lace is worked with motifs or the gauze is delicately embroidered, or worked with tiny shining stones, so that the whole effect is one of splendour upon splendour, and fashionable women in the evening are robed like the wonderful princesses from the old fairy tales!

A lovely dance frock seen at a dress show was of shell pink crepe de Chine with shaded pink petals at the hem, a long scarf finished in the same way, and to complete the picture, a huge fan of shaded petals in the wearer's hand.

A dress of rose pink charmeuse was worked with blue beads and diamonds. Another frock of severely plain white satin, as to the tunic-top, was ornamented from the low waist-line downwards with large scroll embroideries in pink, gold and green.

Petunia crepe was embroidered with gold thread and studded with rhinestones. Apricot georgette was worked in diamond pattern with gold beads and had a plisse wing drapery finishing in a long gold tassel. Black lace was worn over pink crepe de Chine embroidered with pearls and pink and green embroideries. Printed gold satin formed an over dress to black satin beaute. A magnificent gown of gold tissue was covered with filet net upon which shaded gold velvet flowers were appliqued.

TWO NOVELTIES.

Glass elephants with holes in their backs are in demand to ornament dinner tables, for they can be used for flowers or fish. A mirror is the best stand for this elephant, so showing several reflections. Quite often a tribe of elephants, ranging from large to small, march solemnly round the edge.

"Dressing tables" which are contained in a small case fitted on to a table are space-saving, if nothing more. Mirrors are fitted into the lids of these cases, and the toilet accessories are kept in a special compartment. Under this is gathered a delicate taffetas work bag for storing up odds and ends.

CAPE MAKES ENSEMBLE.

This smart frock of blue crepe de Chine has its matching cape to conform to the ensemble idea. The trimming on both dress and cape is of figured foulard in rose shades.

FASHION NOTES.

Gold and silver kid are still very much to the fore. The latest idea is circles of various sizes applied on to the frock. Dull gold or silver hats complete these toilettes.

Novel tunics for summer days are composed entirely of interlacing ribbons with masses of looped ribbons marking the hemline. A novelty is pockets and waistbelt of a contrasting ribbon in a deeper colour. Gros grain ribbon with velvet trimming is a charming scheme.

Particularly becoming are the charming morning dresses fashioned of men's shirting. These are long sleeved and finished with grass-lawn collar and cuffs, while wonderfully coloured buttons form the trimming.

BALLERINA ESPANOLA.

From far-off Sunny Spain comes this photograph of Senora Carmen Bladema of Madrid who is said to be the most beautiful and the most perfect ballet dancer in the world.

A BEAUTIFUL DANSEUSE.

Anna Robenna of the Russian Imperial Ballet will be brought to America to head an American National Ballet.

WHY LET RHEUMATISM RACK YOU.

When Cure is Within Reach By Tonic Treatment Through The Blood?

How Thousands Have Found It In DR. WILLIAMS' PINK PILLS.

Why are there so many failures in the treatment of rheumatism? Why are so many sufferers resigned to a life of pain; despairing of a permanent cure? The reason is because rheumatism defies any treatment that does not purify and at the same time build up the blood. The poisons of rheumatism are in the blood and it is only through the blood that the disease can successfully be fought.

Unless the blood is weak and impure rheumatism cannot get a foothold. When it does the thin and impure blood is not strong enough to overcome the poisons, and then the muscles grow

more and more painful, the joints become stiff and swollen, lumbago settles in the back, in many cases the sufferer is confined to bed, feverish and in agony, hardly daring to move, for days, weeks, even months, at a time.

To purify and at the same time strengthen the blood Dr. Williams' Pink Pills are the best medicine you can take. They make new blood at every dose and promptly check further progress of the disease. They make the blood so pure and strong that not the least trace of rheumatism remains. Dr. Williams' Pink Pills for Pale People have been world-renowned as a blood and nerve tonic for over five-and-thirty years and are the blood's greatest aid in overcoming not only rheumatism, but also anaemia, nervous debility and indigestion. They are of the utmost value to women suffering from the special ailments of their sex. Of Chemists everywhere or post free, \$1.50 per bottle, \$3 for 6 bottles, from the Dr. Williams' Medicine Co., 60, Kianglee Road, Shanghai.
